To: Meredith Dodd <meredith.dodd@woz-u.com>

```r
height <- c(171, 192, 183, 177, 154, 176)

height_df <- data.frame(height)

d <- ggplot(height_df, aes(x = height))

d + geom_histogram(binwidth = 10) +
  ggtitle("Histogram of Heights") +
  xlab("Height (in cm)")
```

*Remove the first plus sing to get non-numeric

```r
faithful_histogram <- ggplot(faithful, aes(x = eruptions))
faithful_histogram + geom_histogram()
```

*Take off a paren up above from the first line of code to get unexpected symbol

```r
Names <- c("Wolfbert", "BunBun", "Buffalump", "Teddy")
Names + 1
```

*For another instance of non-numeric
